Oaktree Specialty Lending Corporation Announces First Fiscal Quarter 2021 Financial Results and Declares Increased Distribution of \$0.12 Per Share

February 4, 2021

LOS ANGELES, CA, Feb. 04, 2021 (GLOBE NEWSWIRE) -- Oaktree Specialty Lending Corporation (NASDAQ: OCSL) ("Oaktree Specialty Lending" or the "Company"), a specialty finance company, today announced its financial results for the fiscal quarter ended December 31, 2020.

Financial Highlights for the Quarter Ended December 31, 2020

- **Total investment income** was \$38.2 million (\$0.27 per share) for the first fiscal quarter of 2021, as compared with \$43.6 million (\$0.31 per share) for the fourth fiscal quarter of 2020. The decrease in investment income for the quarter was primarily driven by lower one-time make-whole interest income from investments that were prepaid in the fourth fiscal quarter of 2020.
- **GAAP net investment income** was \$10.0 million (\$0.07 per share) for the first fiscal quarter of 2021, as compared with \$24.5 million (\$0.17 per share) for the fourth fiscal quarter of 2020. The decrease was primarily due to lower investment income and higher accrued Part II incentive fees.
- **Adjusted net investment income** was \$19.6 million (\$0.14 per share) for the first fiscal quarter of 2021, as compared with \$24.5 million (\$0.17 per share) for the fourth fiscal quarter of 2020. The decrease in adjusted net investment income for the quarter was primarily driven by lower investment income.
- **Net asset value ("NAV") per share** was \$6.85 as of December 31, 2020, up 5% from \$6.49 as of September 30, 2020. The increase was primarily driven by realized gains resulting from the exit of an investment previously on non-accrual status and unrealized gains on debt investments.
- **Originated** \$286.3 million of new investment commitments and received \$160.7 million of proceeds from prepayments, exits, other paydowns and sales during the quarter ended December 31, 2020. Of these new investment commitments, 68.6% were first lien loans and 31.4% were second lien loans. The weighted average yield on new debt investments was 8.7%.
- **Total debt outstanding** was \$700.0 million as of December 31, 2020. The total debt to equity ratio was 0.73x, and the net debt to equity ratio was 0.70x, after adjusting for cash and cash equivalents.
- **Liquidity** as of December 31, 2020 was composed of \$24.2 million of unrestricted cash and cash equivalents and \$400.0 million of undrawn capacity under the credit facility (subject to borrowing base and other limitations). Unfunded investment commitments were \$197.6 million, with approximately \$149.8 million that can be drawn immediately as the remaining amount is subject to certain milestones that must be met by portfolio companies.
- **A quarterly cash distribution was declared** of \$0.12 per share, an increase of 9% from the prior quarter and the third consecutive quarterly distribution increase. The distribution will be paid in cash and is payable on March 31, 2021 to stockholders of record on March 15, 2021.

Armen Panossian, Chief Executive Officer and Chief Investment Officer, said, "OCSL reported another quarter of strong financial results and portfolio performance. NAV grew by more than 5% sequentially to \$6.85 per share, exceeding the pre-pandemic level of \$6.61 per share at December 31, 2019. The increase was primarily driven by continued strong portfolio company performance and the favorable realization of a non-core investment that was previously on non-accrual. Earnings were solid at \$0.14 per share, as our opportunistic investment activity in the wake of the pandemic and progress in rotating the portfolio into higher yielding, proprietary investments continue to favorably impact results. Recognizing this ongoing strong performance, the Board of Directors announced a dividend increase to \$0.12 per share, up 26% from one year ago and marking the third consecutive quarter with a dividend increase. Looking ahead, we believe our high-quality investment portfolio with an improved yield profile is well-positioned to deliver continued attractive risk-adjusted returns to our shareholders."

Distribution Declaration

The Board of Directors declared a quarterly distribution of \$0.12 per share, an increase of 9%, or \$0.01 per share, from the prior quarter, and the third consecutive quarterly distribution increase, payable on March 31, 2021 to stockholders of record on March 15, 2021.

Distributions are paid primarily from distributable (taxable) income. To the extent taxable earnings for a fiscal taxable year fall below the total amount of distributions for that fiscal year, a portion of those distributions may be deemed a return of capital to the Company's stockholders.

As of December 31, 2020, 94.4% of the Company's portfolio at fair value consisted of debt investments, including 60.3% of first lien loans, 25.4% of second lien loans and 8.7% of unsecured debt investments, including the debt investments in SLF JV I. This compared to 62.3% of first lien loans, 21.7% of second lien loans and 10.3% of unsecured debt investments, including the debt investments in SLF JV I at fair value as of September 30, 2020.

As of December 31, 2020, there was one investment on non-accrual status, which represented less than 0.1% of the debt portfolio at cost and fair value. During the quarter ended December 31, 2020, the Company exited one investment that was previously on non-accrual and realized a full par recovery.

The Company's investments in SLF JV I totaled \$125.5 million at fair value as of December 31, 2020, up 7% from \$117.4 million as of September 30, 2020. The increase in the value of the Company's investments in SLF JV I was primarily driven by continued unrealized appreciation in the underlying investment portfolio resulting from the improvement in broader credit market conditions during the quarter.

As of December 31, 2020, SLF JV I had \$341.2 million in assets, including senior secured loans to 56 portfolio companies. This compared to \$313.5 million in assets, including senior secured loans to 56 portfolio companies, as of September 30, 2020. Liquidity and Capital Resources

As of December 31, 2020, the Company had total principal value of debt outstanding of \$700.0 million, including \$400.0 million of outstanding borrowings under the revolving credit facility and \$300.0 million of the 3.500% Notes due 2025. The funding mix was composed of 57% secured and 43% unsecured borrowings as of December 31, 2020. The Company has no near-term debt maturities, as the next scheduled maturity is for the revolving credit facility in February 2024. The Company was in compliance with all financial covenants under its credit facility as of December 31, 2020.

On October 28, 2020, the Company entered into an incremental commitment and assumption agreement in connection with the Company's exercise of \$75 million of the accordion feature under the credit facility. On December 28, 2020, the Company entered into an incremental commitment agreement pursuant to which a lender under the credit facility increased its commitment amount under the credit facility by \$25 million. As a result of such agreements, as of December 31, 2020, the size of the credit facility was \$800 million.

As of December 31, 2020, the Company had \$24.2 million of unrestricted cash and cash equivalents and \$400.0 million of undrawn capacity on its credit facility (subject to borrowing base and other limitations). Unfunded investment commitments were \$197.6 million as of December 31, 2020, with approximately \$149.8 million that can be drawn immediately as the remaining amount is subject to certain milestones that must be met by portfolio companies. The Company has analyzed cash and cash equivalents, availability under its credit facility, the ability to rotate out of certain assets and amounts of unfunded commitments that could be drawn and believe its liquidity and capital resources are sufficient to take advantage of market opportunities in the current economic climate.

Non-GAAP Financial Measures

Adjusted Net Investment Income

On a supplemental basis, the Company is disclosing adjusted net investment income and per share adjusted net investment income, each of which is a financial measure that is calculated and presented on a basis of methodology other than in accordance with U.S. GAAP ("non-GAAP"). Adjusted net investment income represents net investment income, excluding capital gains incentive fees ("Part II incentive fee"). The Company's management uses this non-GAAP financial measure internally to analyze and evaluate financial results and performance and believes that this non-GAAP financial measure is useful to investors as an additional tool to evaluate ongoing results and trends for the Company without giving effect to capital gains incentive fees. The Company's investment advisory agreement provides that a capital gains-based incentive fee is determined and paid annually with respect to realized capital gains (but not unrealized capital appreciation) to the extent such realized capital gains exceed realized capital losses and unrealized capital depreciation on a cumulative basis. Refer to Note 11 – *Related Party Transactions* in the Company's Quarterly Report on Form 10-Q for further discussion. The Company believes that adjusted net investment income is a useful performance measure because it reflects the net investment income produced on the Company's investments during a period without giving effect to any changes in the value of such investments and any related capital gains incentive fees between periods. The presentation of adjusted net investment income is not intended to be a substitute for financial results prepared in accordance with GAAP and should not be considered in isolation.

The following table provides a reconciliation of net investment income (the most comparable U.S. GAAP measure) to adjusted net investment income for the periods presented:
