Calculation of Assets Under Management

References to total "assets under management" or "AUM" represent assets managed by Oaktree and a proportionate amount of the AUM reported by DoubleLine Capital LP ("DoubleLine Capital"), in which Oaktree owns a 20% minority interest. Oaktree's methodology for calculating AUM includes (i) the net asset value ("NAV") of assets managed directly by Oaktree, (ii) the leverage on which management fees are charged, (iii) undrawn capital that Oaktree is entitled to call from investors in Oaktree funds pursuant to their capital commitments, (iv) for collateralized loan obligation vehicles ("CLOs"), the aggregate par value of collateral assets and principal cash, (v) for publicly-traded business development companies, gross assets (including assets acquired with leverage), net of cash, and (vi) Oaktree's pro rata portion (20%) of the AUM reported by DoubleLine Capital. This calculation of AUM is not based on the definitions of AUM that may be set forth in agreements governing the investment funds, vehicles or accounts managed and is not calculated pursuant to regulatory definitions.

Unless otherwise indicated, data provided herein are dated as of June 30, 2022.

Oaktree's Investment Philosophy

PRIMACY OF RISK CONTROL

Rather than merely searching for prospective profits, we place the highest priority on preventing losses;
"If we avoid the losers, the winners will take care of themselves" – Howard Marks

EMPHASIS ON CONSISTENCY

DISAVOWAL OF MARKET TIMING

Bargains are purchased without reliance on predictions about the market's future direction

OCSL's Areas of Focus

PRIMARY FOCUS ON DIFFERENTIATED PRIVATE CREDIT TRANSACTIONS WITH A SECONDARY EMPHASIS ON PUBLIC DEBT MARKETS

PRIMARY FOCUS

PRIVATE CREDIT

- Bespoke, highly structured private investments in non-sponsor companies that have unique needs, complex business models or specific business challenges
- Focus on opportunities that are not well-trafficked by other lenders
- Direct lending to businesses backed by sponsors that have demonstrated industry expertise or value long-term partnerships

SECONDARY FOCUS

ATTRACTIVELY PRICED PUBLIC CREDIT

- Leverage Oaktree's presence in liquid credit markets to uncover attractive primary market new issuance or discounted secondary opportunities
- Examples include broadly syndicated loans, high yield bonds and structured credit
- Generally shorter hold periods and smaller positions relative to private credit investments

Current Market Opportunities in Focus

NON-SPONSORED SITUATIONAL LENDING

Directly originated loans to non-sponsor companies that are hard to understand and value using traditional underwriting techniques

SELECT SPONSOR-RELATED FINANCINGS

Flexible financing solutions to support leveraged buyouts of companies by sponsors that have expertise in certain industries

STRESSED SECTOR & RESCUE LENDING

Opportunistic private loans in industries experiencing stress or limited access to capital

PUBLIC CREDIT

Discounted, high-quality public debt investments, especially in times of market dislocation

Opportunity

Originate highly-structured bespoke private loans that provide downside risk management by mitigating the specific risks of the issuer and its business

Sponsors have a significant amount of dry powder and can write large equity checks which provide downside protection

Lenders have a history of avoiding certain industries resulting in a lack of capital availability to both favorable and unfavorable issuers

Leverage Oaktree's presence in liquid credit markets to uncover securities, such as high-yield bonds and leveraged loans, impacted by market dislocations or sector-focused headwinds

Examples

Customized loan to a life sciences company that is unable to access traditional bank financing to commercialize its product pipeline

Private equity firms focused on the software and healthcare sectors

Company temporarily impacted by COVID-19 headwinds or other macro events

Discounted broadly syndicated loans, high yield bonds or structured credit, which may be temporarily undervalued due to technical market movements

We believe there are ample opportunities for generating alpha in less crowded areas of the direct lending market and in the public debt markets, especially during market dislocations

Non-GAAP Disclosures

On March 19, 2021, the Company completed the Merger. The Merger was accounted for as an asset acquisition in accordance with the asset acquisition method of accounting as detailed in ASC 805-50, Business Combinations—Related Issues ("ASC 805"). The consideration paid to OCSI's stockholders was allocated to the individual assets acquired and liabilities assumed based on the relative fair values of the net identifiable assets acquired other than "non-qualifying" assets, which established a new cost basis for the acquired OCSI investments under ASC 805 that, in aggregate, was significantly lower than the historical cost basis of the acquired OCSI investments prior to the Merger. Additionally, immediately following the completion of the Merger, the acquired OCSI investments were marked to their respective fair values under ASC 820, Fair Value Measurements, which resulted in unrealized appreciation. The new cost basis established by ASC 805 on debt investments acquired will accrete over the life of each respective debt investment through interest income, with a corresponding adjustment recorded to unrealized appreciation on such investment acquired through its ultimate disposition. The new cost basis established by ASC 805 on equity investments acquired will not accrete over the life of such investments through interest income and, assuming no subsequent change to the fair value of the equity investments acquired and disposition of such equity investments at fair value, the Company will recognize a realized gain with a corresponding reversal of the unrealized appreciation on disposition of such equity investments acquired.

On March 19, 2021, in connection with the closing of the Merger, OCSL entered into an amended and restated investment advisory agreement (the "A&R Advisory Agreement") with Oaktree. The A&R Advisory Agreement amended and restated the existing investment advisory agreement, dated as of May 4, 2020, by and between the Company and Oaktree to (1) waive an aggregate of \$6 million of base management fees otherwise payable to Oaktree in the two years following the closing of the Merger at a rate of \$750,000 per quarter (with such amount appropriately prorated for any partial quarter) and (2) revise the calculation of the incentive fees to eliminate certain unintended consequences of the accounting treatment of the Merger on the incentive fees payable to Oaktree.

The Company's management uses the non-GAAP financial measures described above internally to analyze and evaluate financial results and performance and to compare its financial results with those of other business development companies that have not adjusted the cost basis of certain investments pursuant to ASC 805. The Company's management believes "Adjusted Total Investment Income", "Adjusted Total Investment Income Per Share", "Adjusted Net Investment Income" and "Adjusted Net Investment Income Per Share" are useful to investors as an additional tool to evaluate ongoing results and trends for the Company without giving effect to the accretion income resulting from the new cost basis of the OCSI investments acquired in the Merger because these amounts do not impact the fees payable to Oaktree under the A&R Advisory Agreement, and specifically as it relates to "Adjusted Net Investment Income" and "Adjusted Net Investment Income Per Share", without giving effect to Part II incentive fees. In addition, the Company's management believes that "Adjusted Net Realized and Unrealized Gains (Losses), Net of Taxes", "Adjusted Net Realized and Unrealized Gains (Losses), Net of Taxes Per Share", "Adjusted Earnings (Loss)" and "Adjusted Earnings (Loss) Per Share" are useful to investors as they exclude the non-cash income/gain resulting from the Merger and used by management to evaluate the economic earnings of its investment portfolio. Moreover, these metrics align the Company's key financial measures with the calculation of incentive fees payable to Oaktree under with the A&R Advisory Agreement (i.e., excluding amounts resulting solely from the lower cost basis of the acquired OCSI investments established by ASC 805 that would have been to the benefit of Oaktree absent such exclusion).
