Non-GAAP Disclosures

On March 19, 2021, the Company completed the Merger. The Merger was accounted for as an asset acquisition in accordance with the asset acquisition method of accounting as detailed in ASC 805-50, Business Combinations—Related Issues ("ASC 805"). The consideration paid to OCSI's stockholders was allocated to the individual assets acquired and liabilities assumed based on the relative fair values of the net identifiable assets acquired other than "non-qualifying" assets, which established a new cost basis for the acquired OCSI investments under ASC 805 that, in aggregate, was significantly lower than the historical cost basis of the acquired OCSI investments prior to the Merger. Additionally, immediately following the completion of the Merger, the acquired OCSI investments were marked to their respective fair values under ASC 820, Fair Value Measurements, which resulted in unrealized appreciation. The new cost basis established by ASC 805 on debt investments acquired will accrete over the life of each respective debt investment through interest income, with a corresponding adjustment recorded to unrealized appreciation on such investment acquired through its ultimate disposition. The new cost basis established by ASC 805 on equity investments acquired will not accrete over the life of such investments through interest income and, assuming no subsequent change to the fair value of the equity investments acquired and disposition of such equity investments acquired.

On March 19, 2021, in connection with the closing of the Merger, OCSL entered into an amended and restated investment advisory agreement (the "A&R Advisory Agreement") with Oaktree. The A&R Advisory Agreement amended and restated the existing investment advisory agreement, dated as of May 4, 2020, by and between the Company and Oaktree to (1) waive an aggregate of \$6 million of base management fees otherwise payable to Oaktree in the two years following the closing of the Merger at a rate of \$750,000 per quarter (with such amount appropriately prorated for any partial quarter) and (2) revise the calculation of the incentive fees to eliminate certain unintended consequences of the accounting treatment of the Merger on the incentive fees payable to Oaktree.

The Company's management uses the non-GAAP financial measures described above internally to analyze and evaluate financial results and performance and to compare its financial results with those of other business development companies that have not adjusted the cost basis of certain investments pursuant to ASC 805. The Company's management believes "Adjusted Total Investment Income", "Adjusted Total Investment Income" and "Adjusted Net Investment Income Per Share" are useful to investors as an additional tool to evaluate ongoing results and trends for the Company without giving effect to the accretion income resulting from the new cost basis of the OCSI investments acquired in the Merger because these amounts do not impact the fees payable to Oaktree under the A&R Advisory Agreement, and specifically as its relates to "Adjusted Net Investment Income" and "Adjusted Net Investment Income Per Share", without giving effect to Part II incentive fees. In addition, the Company's management believes that "Adjusted Net Realized and Unrealized Gains (Losses), Net of Taxes", "Adjusted Net Realized and Unrealized Gains (Losses), Net of Taxes Per Share", "Adjusted Earnings (Loss)" and "Adjusted Earnings (Loss) Per Share" are useful to investors as they exclude the non-cash income/gain resulting from the Merger and used by management to evaluate the economic earnings of its investment portfolio. Moreover, these metrics align the Company's key financial measures with the calculation of incentive fees payable to Oaktree under with the A&R Advisory Agreement (i.e., excluding amounts resulting solely from the lower cost basis of the acquired OCSI investments established by ASC 805 that would have been to the benefit of Oaktree absent such exclusion).
